Railroad Meetings.

There will be a meeting of the citizens, to consider the subject of the construction of a railroad from Aberdeen, Miss., to Decatur, Ala., at the following times and places:

Walton's Store, Tuesday, 27th inst. - Grubb Springs, Wednesday, 28th inst. Quincy, Thursday, 29th inst. Tubbs Cross Roads, Friday, 30th inst. Cotton Gin Port, Saturday, 31st inst. Addresses by L. E. Houston, E. O. Sykes, J. W. Lee, R. O. Reynolds, W. W. Troup, J. M. Acker, and others.

THE FIRST OPEN BOLL.

JAMES GATES, colored, who farms on the Monroe Prairie, near Egypt Station, sent us in the first open cotton boll of the season, picked on the 25th inst.

The first open boll last season was brought in on the 19th of July, by Mr. Samuel Reedy, who farms near Prairie station.

Just after writing the above, we received two more open bolls, from the plantation of Mr. M. M. Tator, near Love's School House, in this county.

It seems to us that the Aberdeen Exposition Association should at an early day announce the time for holding its Second Annual Fair. We call attention to this matter for the reason that during the month of August the owners of race horses make up their lists for the fall circuit, and we do not want our Fair to be left out. The same remark applies to the owners of "blue ribbon stock," patentees of machinery, etc. These people endeavor to visit as many fairs as possible every fall, and generally prepare their lists of appointments early in the season.

Rye and Rock cures Throat Diseases of all kinds.

SHELL & BURDINE.

New style Laces, Fischues and Barbies, just received at Mrs. A. M. Henwood's.

We learn from Messrs C. C. Heisen, M. H. Stephens, P. M. Cabbot and others, who have recently visited the neighboring counties in Alabama, that the crops of cotton and corn in the region referred to are finer than they have been before for many years. The indications are that our Alabama trade this fall will be unprecedented, and the merchants must prepare to meet its requirements.

The season for LOW PRICES on ALL KINDS OF GOODS, has arrived, at LOUIS ROY'S.

A wonderful bargain in GREEN and BLACK TEA, at ECKFORD & BRO'S.

Our Midsummer Wagon Trade.

An idea of the wagon trade of Aberdeen at this, the dull season of the year in the cotton region, can be formed when we say that there were forty-three wagons from the country, on Commerce, between the New Hotel corner and Meridian street—one square—at noon on Tuesday; and probably double the number had arrived and departed during the morning.

This would be considered a good showing for almost any other city or town in the State, during the winter season, though nothing for Aberdeen even in the "dog days."

Dancing Academy.

Prof. C. H. CLEVELAND, respectfully announces that he will open his Dancing Academy, at the Public School Hall, on Thursday evening, July 29th. For terms, days and hours of tuition, see circulars now being distributed throughout the city; also at the Book and Drug Stores. [j21-td.]

Now is the time for our merchants to make their propositions in regard to the First Bale of cotton of the new crop. Would it not be well to offer two handsome prizes, one for the first bale brought to this market from Alabama, and one for Mississippi? There is nothing like opening the market with a dash.

New style Laces, Fischues and Barbies, just received at Mrs. A. M. Henwood's.

Great Reduction of Prices On all Fancy Goods, at LOUIS ROY'S.

The very finest old COGNAC BRANDY, strictly for medicinal purposes, eight years old. Prices low.

The Crop Outlook.

Anything written or spoken in regard to the cotton crop prior to the middle or last of August must, be taken, and considered, in the same light as a barometrical report, good for the day only for the field that on Monday morning promises a yield of a bale to the acre, may by Saturday night be a grand pasture for the destroying boll worm; but nevertheless it is highly important that these reports should be made.

Here in Monroe county the promise of a heavy yield of cotton is most flattering—careful farmers report the best crop indications they have had since the war; others, who have the reputation of being anything but hopeful prophets claim to have better prospects for a large yield than they have had in twenty-five years. This much we can say: The June, or bottom crop, which has been almost a failure for several years past, is generally fine in Monroe county, and so far advanced that it is almost safe from the attack of the "first crop of worms," and will be opening to a considerable extent in ten or fifteen days, and there is no good reason to fear that we will not make as large a crop as last season, while we have good grounds to hope for a vast increase in the cotton yield of Old Monroe, and an abundant corn crop.

Hoarseness dissipates after using Rye and Rock a few days.

Democratic Song-Book.

We have received a copy of the "Hancock and English Democratic Song-Book," containing a good supply of rousing songs for the campaign. There are also sketches of our standard-bearers, and a good portrait of Gen. Hancock. The songs are full of "go," and are set to familiar tunes. Every Democrat should have it and join in the grand chorus. The price is only ten cents.

Utilizing the Convicts.

Deputy Sheriff Moore and Pierce are hard at work with eight of the County jail-prisoners, building a splendid causeway on the East side of the river from the free bridge to Capt. H. J. B. Lam's residence, a distance of over three miles. This will add greatly to the comfort and convenience of wagoners during the approaching cotton season.

We understand that it is the purpose of the Board of Supervisors after the completion of the job referred to, to assign the jail convicts to the work of carrying the Columbus road from the free bridge to Col. Riley Nichols'. This is infinitely better than to keep the prisoners confined during the heated term, and as a general thing the convicts prefer the outdoor work.

[j21-6m.]

We publish this morning a list of appointments of times and places at which the people of the county will be addressed upon the subject of a railroad from Aberdeen to Decatur, a theme that has long been a favorite pet in the hearts of our people, whose successful accomplishment has long been looked forward to with interest and which has been believed to be only a question of time. We shall have something to say upon this subject hereafter.

Working on the Upper River.

Capt. BEN NEWBOLD, with a large force of competent hands, is actively at work on the improvements of the river between Cotton Gin and Smithville, and we understand that he will have a large party on the Fulton division of the work during the summer.

Major Dameron could not have put the work in better hands, and with Henry Muldrow in Congress to help him, we may expect to see the improvements pushed along so rapidly as to give us first-class navigation in anything like a fair stage of water from Mobile to Fulton within the next two years.

The Steamer Lillie Lou and the Barges, will resume their trips from Aberdeen to Fulton on the first "rise."

If you wish a pure article of Claret Wine at reduced prices, call at once and supply yourself.

In following the crowd, you are sure to be led into the popular Dry Goods house of LOUIS ROY, where you will never be deceived in PRICES and QUALITY of goods.

The finest Times and the oldest Times, these Times is SHELL & BURDINE'S OLD TIMES.

We had the pleasure of a call on Saturday from "Doc" McKISKEY, the handsomest and best Assessor in the State. He is making splendid progress with his assessment of the property of the county, and will probably get through with the work this week. If the new roll does not show a heavy increase upon the totals of 1879, it will not be for the reason that our people have not advanced in prosperity or that they have been overlooked by "Doc," but rather on account of the secretive disposition of the "generality of mankind in general," which inclines them to keep all the good things they know to themselves, and turn loose all that is discouraging or depressing.

The click of the trowel and the sound of the saw, hammer and plane, are to be heard on every hand in Aberdeen. Her mechanics are all actively employed, her laborers have as much work to do as they can manage, and the result is, all are happy and contented. Works of Photographic Art.

Happening in at the Photograph Gallery of Mr. A. R. HENWOOD, on Wednesday, we had the pleasure of inspecting some of the most beautiful and faithful works of Art that we have seen for a long time, consisting of photographs taken in Mr. Henwood's best style—that is the summit of excellence—tastefully and artistically tinted and colored.

These pictures are equal to portraits in all essentials, more durable and exact, while infinitely cheaper. In furnishing these beautiful pictures Mr. Henwood abides by the same rule that governs him in taking ordinary photographs, that is he charges you for satisfactory work, and never considers the money earned until the patron is satisfied with both the likeness and finish.

Drop in and look at the work we speak of. He would rather take trouble to show such pictures than not.
